

7804

ELECTRIC HEAT PUMP MODEL

DRYING CABINET

Drying Cabinets have no mechanical action and are used to efficiently dry bulky items such as workwear/overalls/gloves and boots.

PRIORITY ON PEOPLE

Ergonomic design, with user friendly positioning of door handle, control panel and suitable for disabled users.

- Easy operation with 2 automatic drying programs, which will stop once the load is dry
- 18-20 extendable hangers for easy loading/unloading, reversible
- Flexible installation with adjustable feet
- Insulated doors for quiet operation and robust design

LONG-TERM SAVINGS

By using a Drying Cabinet with a Heat Pump, not only can you avoid exhaust connection you can reach energy saving of 40% compared with an electric vented version. There are two options of heat pump versions.

PRODUCTIVITY

Time saving when used instead of flat or hang drying. The door can be opened a short moment without stopping the drying process.

ACCESSORIES

Main specifications		7804
Rated capacity	kg	8
Evaporation*	g/min	50
Drying time cotton*	min	60
Rated input	kW	2.3
Energy/load of linen	kWh/kg	0.35
Energy/water evaporated	kWh/l	0.70

* Applies to 8 kg dry weight cotton with 50% residual moisture.
We reserve the right to alter specifications without notice.
