

# Stronghold 450 Wash Gun

## The Gun For Foaming Systems

### KEY FEATURES

- **Improves Operator Safety** - This is achieved through an easy to pull trigger which reduces operator strain and RSI injuries, which are not uncommon with standard trigger guns.
- **Improves Cleaning Efficiency** - Helps save time by enabling you to apply a good quality foam in the exact consistency you want.
- **Increases System Lifetime** - The gun's soft close mechanism reduces the shock on your pumps, pipework and other components, therefore increasing the life of your wash down system.
- **Reduces Costs** - Developed with durability in mind, this washgun is built to be tougher and longer lasting than equivalents, saving you money over time.

This gun is extremely tough and durable and includes a pull release coupling to prevent accidental nozzle release.
