

# High Pressure Washdown Hose

## KEY FEATURES

- Greatly outlasts conventional hoses
- Is more lightweight and flexible than conventional hoses
- Offers pay back to the customer in reduced hose costs and down time
- Available in 3 colour options to assist factory colour coding systems

This hose has been designed specifically for food factory systems. The tough outer cover resists attack from chemicals, animal fats and abrasion and so the cover stays intact and does not peel away.

The steel braiding is galvanised and resists corrosion which adds to hose life.

## TECHNICAL DETAILS

- Pressure rating: 310 bar (4:1 safety factory)
- Temperature Rating: -29°C to +121°C
- 0.42kg/metre
- Internal hose diameter: 9.5mm (3/8")
- External hose diameter: 18.0mm
- Minimum bend radius: 90mm
